EDUCATION—LINKING THE GLOBE

MONTANA STATE LIBRARY

3 0864 0015 0495 3

Dear Friends:

What an exciting time to be in the education profession! With new developments in learning theory, teaching techniques, and educational technology, education truly is leading the charge, linking the globe.

At the heart of these new trends in education is *communication*. Communication is the foundation of learning. It is the spark that carries ideas from one mind to another or from one end of the planet to the other. Communication is the key to thriving in the 21st Century. And communication begins with us, as Montana educators, sharing ideas, successes, and resources across the wide expanses of our state and our world.

The Office of Public Instruction has developed this *Directory of Montana Schools* to help connect educators across the state. I hope it will serve as a useful link in Montana's education network.

STATE BOARD GOVERNANCE

Structure

The Board of Public Education, exercising general supervisory responsibility and in most cases acting on the recommendations of the Superintendent of Public Instruction, has a number of duties prescribed by law concerning the elementary and secondary schools of the state (e.g., accreditation and teacher certification). The control and supervision of the School for the Deaf and Blind is vested in the Board of Public Education.

The Board of Regents is vested with full power, responsibility and authority to supervise, coordinate, manage and control the Montana University System and also to supervise and coordinate community college and vocational-technical centers.

The members of the Board of Public Education and the Board of Regents, meeting together, form the State Board of Education which has responsibility for submitting unified budget requests for long-range planning and for coordination and evaluation of policies and programs for the state's educational systems. The Governor serves as president and the Superintendent of Public Instruction serves as secretary of the State Board of Education.

Membership

The Board of Public Education and the Board of Regents each have seven voting members appointed by the Governor with the consent of the Senate. Neither board may have more than four voting members from the same congressional district nor from the same political party or organization. The term of office for appointed members is seven years, except for the student appointee to the Regents whose term varies. The Board of Public Education also has a non-voting student member who has a one-year term.

The Governor, Superintendent of Public Instruction and Commissioner of Higher Education serve as ex officio, non-voting members on both boards.
